

Mohawk Speedlane: Two-Post Lift Drive-On Adapter

The Speed and Ease of a Drive-On for Your Existing Two-Post Lift.

FASTER. Drive-up and immediately lift vehicle. No need to spend time positioning lift's swing arms.

SAFER. You can't accidentally damage customer's vehicle by positioning arms incorrectly. Durable rubber pads raise vehicles from designated lift points while protecting against scratches and dents.

EASY SET-UP. Quickly slips on and locks in place or slips off in just seconds.

HEAVY-DUTY, BUT LIGHTWEIGHT. Rugged aluminum holds full lifting capacity, yet weighs just 90 lbs.

FLEXIBLE. Use one or both adapters as the job requires. Or remove Speedlane entirely in seconds.

Sturdy "dura-beam" construction for years of trouble-free service

Quickly fits into existing truck adapter holes

Large 24"Wx48"L lifting platform with fold-down, shallow angle approach ramp

Pyramid shaped rubber pads also included for frame contact on trucks

Heavy-duty rollers prevent scratching shop floor

Fits all Mohawk 9,000, 10,000 12,000 & 16,000lb. 2-post lifts

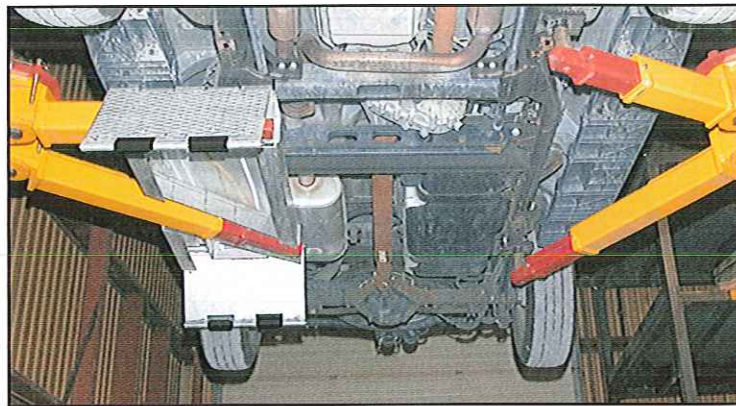

Locking pins prevent arms from moving when positioning vehicle

Made of lightweight durable aluminum

Diamond plated for enhanced traction

EASY ACCESS. Mohawk Speedlane gives you full working access to the underside of the car. Great for uni-bodies or full frame trucks

ON OR OFF. You can use both adapters or just one for more access to one side of the vehicle. Changeover in seconds
