

# SPOA10-AV

WITH ALL-VEHICLE  
(AV) LIFT ARMS

INTRODUCING THE ONE LIFT  
**TO SERVICE  
THEM ALL.**

MODEL SHOWN:  
SPOA10N20M0BL

MODEL SHOWN:  
SPOA10N20M0RD

The next evolution in  
vehicle lift technology is here.

The industry's original & best-selling asymmetrical lift now  
features Rotary's patent-pending, revolutionary **ALL-VEHICLE LIFT ARMS.**

10,000 lbs. capacity AV arms lift and  
service practically all roadgoing vehicles  
on ONE LIFT, including:\*

- Battery Electric
- Exotic Low Profile
- Truck Frame
- Unibody Cars & SUVs

\*Within the lift's rated capacity

# SIMPLY. LIFTING. EVERYTHING.

## ULTIMATE LIFTING VERSATILITY

With the shortest arm retraction and largest pickup range of any two-post lift, Rotary's AV lift arms simplify your shop and give technicians the flexibility and clearance needed to service any vehicle.

## EASY SPOTTING & POSITIONING

Rotary's new AV Arms allow you to properly lift any vehicle on recommended OEM pickup points. Get more vehicles in the shop and on the lift faster with easy spotting and superior lifting capabilities.

**You won't have to turn away business with Rotary's new, revolutionary AV Arm design!**

## THE HIGHEST CAPACITY LOW-PROFILE LIFT AVAILABLE

With the industry's lowest profile arm height available of any 10,000 lb. capacity two-post lift, technicians can easily spot lower profile vehicles without worry.

## THE LOWEST ADAPTER HEIGHT IN THE INDUSTRY

The outer arm and adapter height are the same measurement reducing any possibility the arm makes contact with vehicle underbodies.

The adjustable, low adapter height allows the needed reach to easily spot, lift and repair unibody, exotic and battery electric vehicles.

Reach small, specific pick-up points on EVs with the needed clearance to remove propulsion batteries.

# THE ONLY LIFT YOU NEED.

## 20% MORE REACH

THAN 3-STAGE ARMS WITH THREAD-UP ADAPTERS

**Shortest arm retraction in the market by up to 9"**

### PATENT-PENDING ALL-VEHICLE ARMS

Innovative design streamlines the arm for a simpler fine adjustment of the adapter while maintaining maximum reach and retraction. Engineered, high-strength tapered arm design allows for easier, faster positioning of adapters compared to traditional arm designs.

## 30% LARGER ARM SWEEP

THAN CONVENTIONAL 2-STAGE ARMS WITH FLIP-UP ADAPTERS

**Largest pick up area range in the market**

Substantial maximum reach for lifting trucks and other frame vehicles

## Comes standard with adjustable round, truck & stackable adapter extensions

Include two sets (four each) of 3 1/2" and 5 1/4" stackable adapter extensions with storage rack.

### ROUND ADAPTERS

For lifting unibody and battery electric vehicles.

Set of four polymer pad round adapters thread-up to allow protection of vehicle underbody components or undercoating for no metal on metal contact.

### TRUCK ADAPTERS

For use on framed vehicles.

Set of four adjustable thread-up adapters with rubber pads for protection of underbody vehicle components or undercoating.

**FEATURES & SPECIFICATIONS**  
ACCOMMODATE ALL VEHICLE TYPES UNDER 10,000 LBS.

**True asymmetrical rotated column design**

Service a broader range of vehicles with one innovative ALL-VEHICLE arm design!

- NEW All-Vehicle Arms
- Original "Double S" column design
- Performance tested to 20K lift cycles
- Nationwide support

Customize SPOA10-AV series lifts to fit the needs of your shop with:

- Lift height
- Power option
- Lift accessories

**AVAILABLE WITH SHOCKWAVE™ POWER**

Supercharged SHOCKWAVE™ Equipped Rotary Lifts:  
The World's Fastest Lifts – only available from Rotary!

Twice as fast than any other standard service lift, Shockwave-equipped lifts help achieve your goals of greater technician productivity and higher profits.

Designed specifically for service speed, Shockwave helps you keep step with the ever changing demands in the vehicle service industry.

Watch your productivity increase, the number of service orders increase and be shocked at the increase in revenue!
