

Portable Exhaust Extraction System

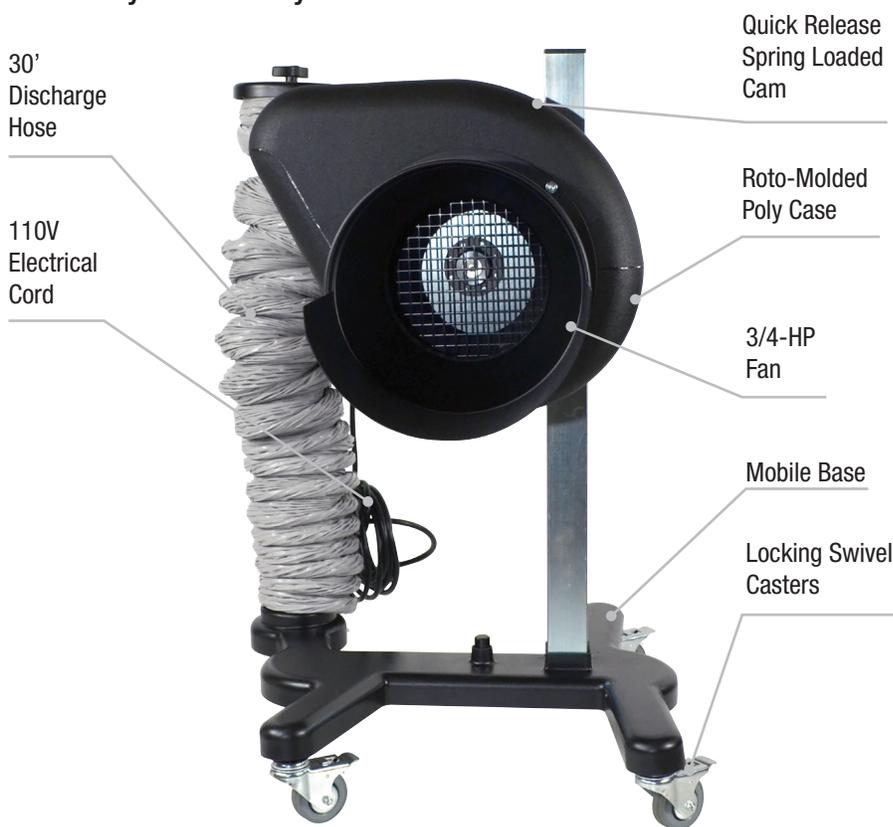

EV-5100 & EV-ADPT

NOTABLE FEATURES

- Fan is mounted in tough, roto-molded polyethylene “flow-through” case
- Easily position behind vehicle with sturdy, mobile base
- Control height position with the quick-release, spring-loaded cam
- Discharge Hose stores neatly when not in use
- Optional Y Hose Adapter available for dual-exhaust vehicles
- Not recommended for Diesel applications

Remove vehicle exhaust fumes from service areas with this practical and affordable Portable Exhaust Extraction System. This Portable Extractor captures fumes from the vehicle and discharges them safely up to 30' away, keeping your staff safe from harmful fumes. Easily mount the Portable Exhaust Extraction System where you need it.
